

1-phosphatidylinositol binding  
endosomal transport  
intracellular protein transport  
protein import  
endosome organization  
negative regulation of protein localization to cell surface  
plasma membrane tubulation  
cytoplasmic vesicle membrane  
endocytosis  
extrinsic component of cytoplasmic side of plasma membrane  
trans-Golgi network  
positive regulation of protein localization to cell surface  
Arp2/3 complex binding  
mitotic cytokinesis  
cytoplasmic vesicle  
phosphatidylinositol binding  
cleavage furrow formation
